PROFESSIONAL SUMMARY

Results-driven **MERN Stack Developer** with **3+ years of professional experience** engineering scalable, high-performance web applications. Specialized in building modern frontend architectures with **React 18, Next.js (SSR), TypeScript, and Redux Toolkit**, along with developing robust RESTful APIs using **Node.js, Express.js, and MongoDB**. Proven track record in implementing enterprise authentication (Keycloak OAuth2/OIDC, JWT), optimizing Core Web Vitals (~35% latency reduction), and delivering clean, testable code in Agile environments.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit, Context API, SPA / SSR

Backend & APIs: Node.js, Express.js, MongoDB, Mongoose, RESTful API Architecture, JWT Authentication, Firebase

UI & Styling: Material UI (MUI), Tailwind CSS, Bootstrap, Responsive Web Design, CSS Modules

Tools & DevOps: Git & GitHub, Vite, Webpack, Postman, Keycloak (OAuth2 / OIDC), Formik & Yup, Linux / Ubuntu

PROFESSIONAL EXPERIENCE

MERN Stack / React Developer – Virtual Height IT Services Pvt. Ltd.

Aug 2023 – Present | Ahmedabad

Architecting and building high-performance web applications, real-time analytics portals, and scalable UI architectures.

- Architected responsive, component-driven frontend applications using **React.js, Next.js, and TypeScript** with modular folder structure.
- Implemented centralized state management and data caching workflows using **Redux Toolkit**, reducing redundant API roundtrips.
- Integrated enterprise SSO authentication and Role-Based Access Control (RBAC) via **Keycloak (OAuth2 / OIDC)** and JWT tokens.
- Optimized web performance, code splitting, lazy loading, and asset delivery, improving Core Web Vitals and cutting initial load time by 35%.
- Collaborated with backend engineers and UI/UX designers in Agile sprints to deliver seamless product releases on schedule.

Frontend / Web Developer – AIMS Infosoft

July 2022 – July 2023 | Ahmedabad

Developed responsive web interfaces, interactive modules, and reusable components using modern frontend technologies.

- Developed responsive, pixel-perfect user interfaces and single-page applications (SPAs) using **React.js, JavaScript, and Bootstrap**.
- Implemented reusable form components with comprehensive client-side validations utilizing **Formik and Yup**.
- Integrated RESTful APIs, managed asynchronous application state with Redux, and resolved cross-browser compatibility issues.
- Participated actively in daily Agile standups, sprint reviews, and UI usability improvements across multiple client deliverables.

FEATURED PROJECTS

NewsCapital (Digital OTT & Live News Platform)

MERN Stack Developer

Next.js, React.js, Node.js, Express.js, MongoDB, Firebase, Redux Toolkit

A high-traffic digital news streaming & OTT platform delivering real-time broadcasting and personalized editorial feeds.

- Built dynamic SSR pages with Next.js for top-tier SEO discoverability and sub-second page transition speeds.
- Integrated Firebase Cloud Messaging for real-time breaking news notifications and live streaming video reader modules.
- Developed a comprehensive Admin CMS dashboard for real-time article publishing, category tagging, and multimedia uploads.

AXI Digital (Decentralized & Enterprise Platform)

Frontend & UI Developer

React 18, TypeScript, Keycloak (OAuth2/OIDC), Redux Toolkit, Material UI, Java REST APIs

An enterprise-grade asset management and analytics portal featuring secure role-based access and real-time monitoring.

- Engineered real-time data visualization dashboards and metric charts for blockchain transaction monitoring.
- Configured resilient Axios interceptors for automated JWT token refreshing, session expiration guards, and unified error handling.
- Built an accessible, reusable component design system using TypeScript and Material UI for consistent enterprise UI.

Real Estate Web Platform

Full Stack MERN Developer

React.js, Node.js, Express.js, MongoDB, TypeScript, JWT, Google Maps API

An end-to-end property discovery platform enabling users to search, filter, and inquire about properties.

- Engineered interactive map discovery using Google Maps JavaScript API with geolocation pins and radius filtering.
- Designed optimized MongoDB schemas and indexing for fast multi-criteria queries (price, location, property type).
- Implemented secure authentication with JWT and role-protected dashboards for buyers, agents, and administrators.

Full Stack E-Commerce & Inventory System

MERN Stack Developer

React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Bootstrap

- Developed end-to-end e-commerce workflows including product filtering, persistent shopping cart, and order pipeline.
- Created RESTful Express backend with MongoDB CRUD APIs, input sanitation, and automated pagination.

School Management System (Database Architecture)

Database & Backend

Node.js, MongoDB, Relational Database Design, REST APIs

- Designed normalized database schema for student enrollment, faculty records, grade tracking, and administrative operations.

EDUCATION

Bachelor of Science (BSc)

KK Shastri Government Science College, Ahmedabad

Graduated: 2022

Higher Secondary Education (12th Science)

Shree Swaminarayan Gurukul, Rajkot

Completed: 2017

Secondary Education (10th)

Shree Swaminarayan Gurukul, Dhasa

Completed: 2015

ADDITIONAL INFO

- Languages: English (Proficient), Hindi (Native), Gujarati (Native)
- Soft Skills: Problem Solving, Agile Collaboration, Team Leadership
- Operating Systems: Windows, Ubuntu / Linux
- Key Strengths: Full-Stack Architecture, Clean Code, Performance Tuning
